

Mayor's Notes

Ridgeway, South Carolina

July 2018

Water Tower

The first phase of the water tower is complete. It's starting to take shape, the concrete feet are poured and the columns are in place. Over the next few weeks, the second phase will begin – erecting the tower. Finally, it will be painted and new lettering will be added. I'm looking forward to the completion of this project. A great new addition to our small town.

4th of July

Wishing everyone a safe, happy 4th of July. As you celebrate the birth of this nation with family and friends remember – safety first, consideration to your pets and neighbors second. Have fun and celebrate with a BANG.

Water Hydrant

The fire hydrant on the corner of Ruff and Palmer Street is scheduled for replacement soon. During this construction, the water will be shut off and we will be on a boil water advisory. Information concerning this matter, will be posted on the town website and Facebook page. The local news stations will be contacted to announce the beginning of the work. Thank you in advance, for your patience during this process. We will do our best to make this a timely process and be back up fully operational, as soon as possible. This hydrant has been in need of replacement for the past two years – a much needed replacement.
